
COVID-19 UPDATE

TO: WESTMINSTER VILLAGE RESIDENTS
FROM: BARB NATHAN
DATE: MAY 1, 2020

I am very, very pleased to tell you that once again we are coming to the end of a week without the COVID virus here at Westminster.

Today was a special day for the staff as we once again named everyone who worked in April as May's Employee of the Month. I cannot tell you how wonderful the staff has been. This has been a challenging time but the smiles on their faces, their willingness to do whatever it takes to keep residents safe, and the ways that they lift each other up has been an inspiration to all.

We have had some new regulations this week, including screening our staff two times per day rather than just once per day, and we have new reporting requirements. We continue to be in the mode of prevention and preparation. There is a team of leaders and staff from various departments in the organization that meet each week to determine our preparation, if we have a positive case, and to do education. We continue to do education of staff in all areas as well. My thanks to the leadership team for the tremendous efforts they have put into our preparation and prevention.

We are thankful for the beautiful weather today and the forecast for nice weather in the days ahead. I encourage you, if able, to get outside regardless of if that is to enjoy the courtyard at Martin Health Center, to sit out on a balcony or patio, or to make use of the Foundation Garden Walk. May the sunshine lift your spirits and be a positive influence on your wellbeing.

As always, we are here to serve you. Please let us know how we can do a better job for you and your loved ones.
