
COVID-19 UPDATE

TO: WESTMINSTER VILLAGE RESIDENTS
FROM: BARB NATHAN
DATE: JUNE 5, 2020

We remain virus free here at Westminster to the best of my knowledge. My thanks again to all who are working hard to keep us virus free. That includes the wonderful staff and all of the efforts that residents are making to protect themselves and each other.

We have received much information this week on the Governor's edict to test residents and staff in long term care facilities. We are planning to start that testing on Monday, June 8 for the residents in Martin Health Center. Staff testing will begin that day also, but it may take several days to complete their testing. This is spot testing. Depending upon the results, additional testing may be required. If there are no COVID cases found, further testing will not occur unless we have a future outbreak or the incidence in Bloomington Normal area increases. Our testing plan follows the regulations provided by the Illinois Department of Public Health.

On Tuesday, June 9 at 10:00 a.m., the All Resident Meeting will be broadcast on Channel 88. I will give a further update on COVID as well as report on several other things happening here at Westminster Village.

As always, we are here to serve you. Please let us know how we can better do that.
