## COVID-19 UPDATE

---

---

**TO:** WESTMINSTER VILLAGE RESIDENTS AND STAFF  
**FROM:** BARB NATHAN  
**DATE:** OCTOBER 23, 2020

Testing was done this week for the residents in Martin Health Center and all staff associated with Martin Health Center. 100% of that staff tested negative and we are still waiting for the resident results. As the area has seen an increase in cases the labs that run these tests have seen an increase which results in slower results for all. Residents and staff of Martin Health Center will be tested again next week.

We will test residents and staff of Assisted Living early next week because a staff member tested positive. We are not required to do this testing but out of an abundance of caution we want to do it. The Health Department will do the contact tracing but because of the precautions we always use, the risk is believed to be minimal.

This is our world right now. We will occasionally have positive tests. It is no one's fault. The important thing is to do everything we can to protect each other and remain diligent in adhering to guidelines. Of course, any time we have a positive test we pray for the individual's wellbeing.
