
COVID-19 UPDATE

TO: WESTMINSTER VILLAGE RESIDENTS AND STAFF
FROM: BARB NATHAN
DATE: FEBRUARY 12, 2021

Once again, all the residents and staff test results received are negative for COVID. We are missing two results which will probably not be back until tonight and we expect those to be negative also. We could not be happier about this. With the vaccination clinic scheduled for next week I am feeling very hopeful that we really have turned the page.

This has been a very special week in Martin Health Center. To see the residents reconnected with a loved one has been a very touching event for all. It both warms our heart and recalls what has happened over these last 11 months. The courage of these residents, their loved ones and the team members over this time amazes and inspires us.

We are busy working on reopening dining rooms and in person programming guidelines for all areas though the timing of each area may be different dependent on various regulations. Our community members, residents and team members, will be nearly 99% vaccinated which should mean we can reconnect with each other in all areas and that is what we're advocating for. More information on this will be shared as we get closer to March 1st.

Until then, let's celebrate the gains we've made so far!

A Reminder: For those in Independent Living and the Willows, please complete and return your satisfaction survey by the end of day Monday. Your input is important.
