## COVID-19 UPDATE

---

---

**TO:** WESTMINSTER VILLAGE RESIDENTS AND STAFF  
**FROM:** BARB NATHAN  
**DATE:** FEBRUARY 19, 2021

We are a vaccinated community! Who could imagine that one year ago we would say something like that or even understand what it would mean, but we certainly do now. We are so thankful. And if that wasn't enough good news: we again have all negative test results for staff and residents.

This will mean some changes throughout the community and much more information will come your way on this next week. For every area, Independent Living, Assisted Living and Martin Health Center, it means we are able to offer many more opportunities for people to connect. Much will change, and yet we will change slowly as we adjust to this new normal of being a vaccinated community.

It is still important for people to keep distanced, wear masks, and wash hands frequently. I especially encourage you to adhere to this strictly as you leave to do things in the broader community. Remember, the outside community is not all vaccinated. You have the greatest protection that is available but it is not 100%.

We look forward to better weather next week, and know that the better weather and being vaccinated could mean that people may go out a little bit more. Please, as you drive on this campus, pay attention and adhere to the stop signs. We have noticed many ignoring these signs and it is for everyone's safety that we have these protections on campus.

I pray that all of you are able to find a moment to reflect on these last 11 months and to give thanks for where we are today. Together, we have gotten through this.
