
COVID-19 UPDATE

TO: WESTMINSTER VILLAGE RESIDENTS AND STAFF
FROM: BARB NATHAN
DATE: FEBRUARY 26, 2021

I believe this is the shortest COVID update since last March. All COVID Tests for residents and staff returned negative results except one that is most probably a false positive in a fully vaccinated person. Dining and small group activities in all areas begin next week. The residents in Martin Health Center will be able to go to the Beauty Shop for the first time in 11½ months. We have the best team members possible. Thanks to all for getting us to this point. (Isn't nice to have a short update!)

On another subject, on Tuesday, March 2 from 1:00 p.m. to 3:00 p.m. the software used for the emergency pendant system will be upgraded again as they couldn't complete this last month. This upgrade is not an option and we expect little interruption from it but the pendants and emergency cords may not work for a period during this upgrade. Please, on Tuesday, March 2 from 1:00 p.m. to 3:00 p.m. have your phone with you so that if you have an emergency you can call for help.
