
WESTMINSTER UPDATE

TO: WESTMINSTER VILLAGE RESIDENTS AND TEAM MEMBERS
FROM: BARB NATHAN
DATE: JULY 1, 2021

Once again I am so thankful where we are related to the pandemic. It was good to see visitors in the Hearth and Landing dining areas this week. In Martin Health Center, Assisted Living and Memory Care, we continue to be under strict regulations related to the pandemic and we urge you to consider this as you visit in those areas. You must still make a reservation as we are required to watch the number of people in the facility. You also need to wear your mask when traveling through those areas and may only take it off in the resident's room or apartment if they agree to that and if you are both vaccinated. We have no idea when we will be on the other side of these regulations but until then it is important that all follow these constraints as we, of course, like every organization, are under scrutiny by the Illinois Department of Public Health.

What a wonderful time to celebrate. The sculpture is being raised and we look forward to 4th of July activities. The 10+ inches of rain has certainly delayed many aspects of Foundation Fountain Park. We will still dedicate the space on July 18 but have already made the decision to reduce it to the dedication and small reception as we are not able to bring in a tent which would have allowed outdoor dining. The Foundation is glad to provide this new space to Westminster Village and we are so grateful to all the donors who are making this happen. We will fully enjoy it as it is completed. The putting green was supposed to be shipped this week, and the day it was supposed to be shipped we were notified that it is on backorder and won't be shipped until the end of July or August. We certainly learned how to wait during the past 16 months of the pandemic and we must wait just a little bit longer to enjoy all parts of this park. Until then, we can enjoy the dedication and social on the July 18 and enjoy the beauty of this fountain from that time forward.

I will be on vacation until July 12. I wish you and yours a wonderful 4th of July.
